After a year of efforts and technological renovation of the vineyards it has been possible, not without a bit of luck, to obtain this wine of rare power and outstanding quality. Our aim was to release a new version of Cabernet, constantly trying our best to appreciate and preserve with the utmost respect what nature offers us only on rare occasions. Our decision to call the wine itself “BOCCON” is far from being fortuitous; on the contrary, we think this is the best way to express a strong sense of belonging to a place, our territory!
